Detailed Project Report

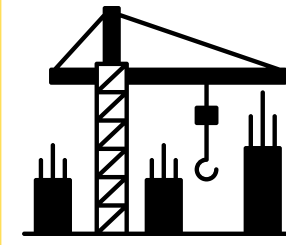

Some of our Pharma Clients

Layout Design

Civil Layout Design

Precise civil layout planning tailored to the unique requirements of your industry for optimal operational flow.

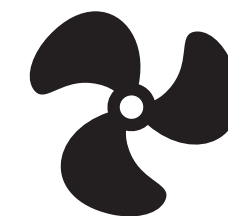

Plumbing Layout Design

Specialized plumbing design to ensure safe and efficient water and waste management in your facility.

Electrical Layout Design

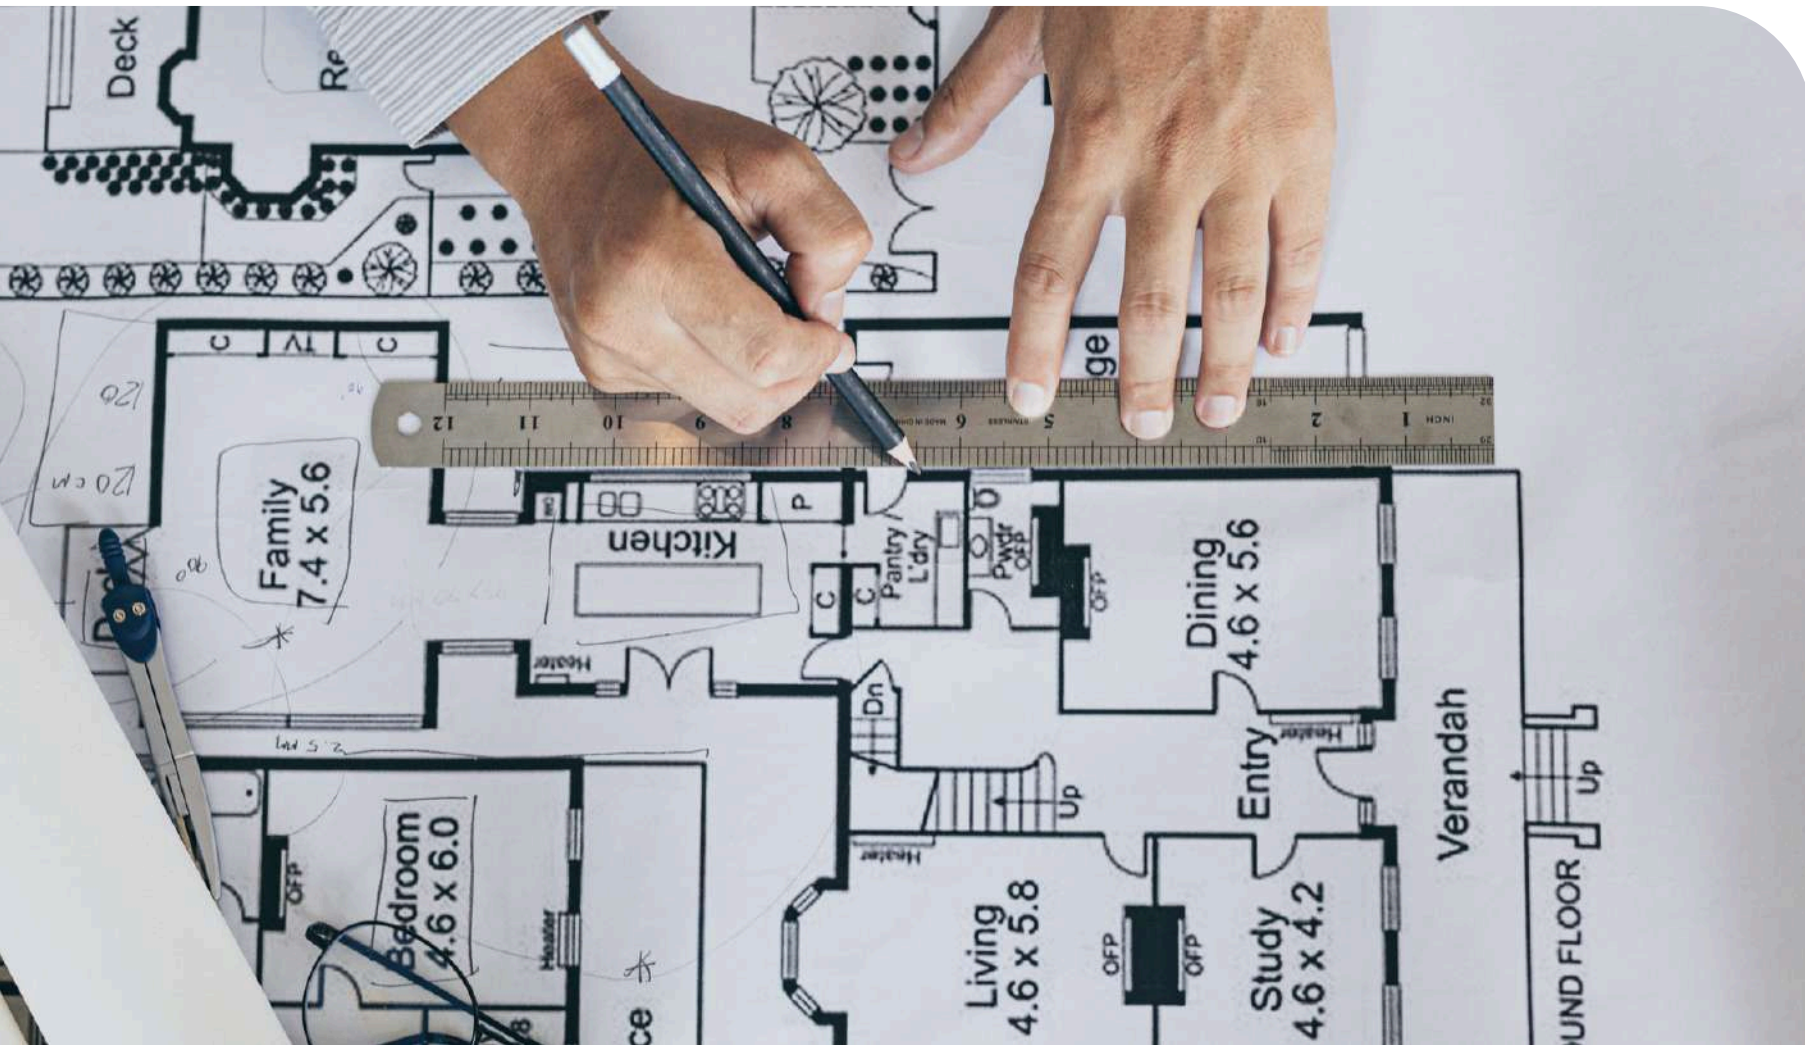

Comprehensive electrical layout solutions for reliable and compliant power distribution.

HVAC Layout Design

Customized HVAC design to maintain ideal environmental conditions for product safety and quality.

Layout Design

01

Measurement of your factory

Our expert team conducts an on-site visit to gather precise measurements and layout details of your factory.

02

Layout Designing

our team creates a customized layout design that maximizes efficiency and productivity. We tailor each design to address specific challenges and requirements of your industry, whether it's improving workflow, optimizing space, or ensuring compliance with regulatory standards.

03

Revisions

We provide ongoing follow-ups to ensure that the layout meets your operational needs in real-world scenarios. If any adjustments are required, we offer revisions based on the latest market insights and your feedback.

Detailed Project Report

Our in-depth project reports provide a complete overview, tailored to meet industry standards and equip you with essential insights for a successful project launch.

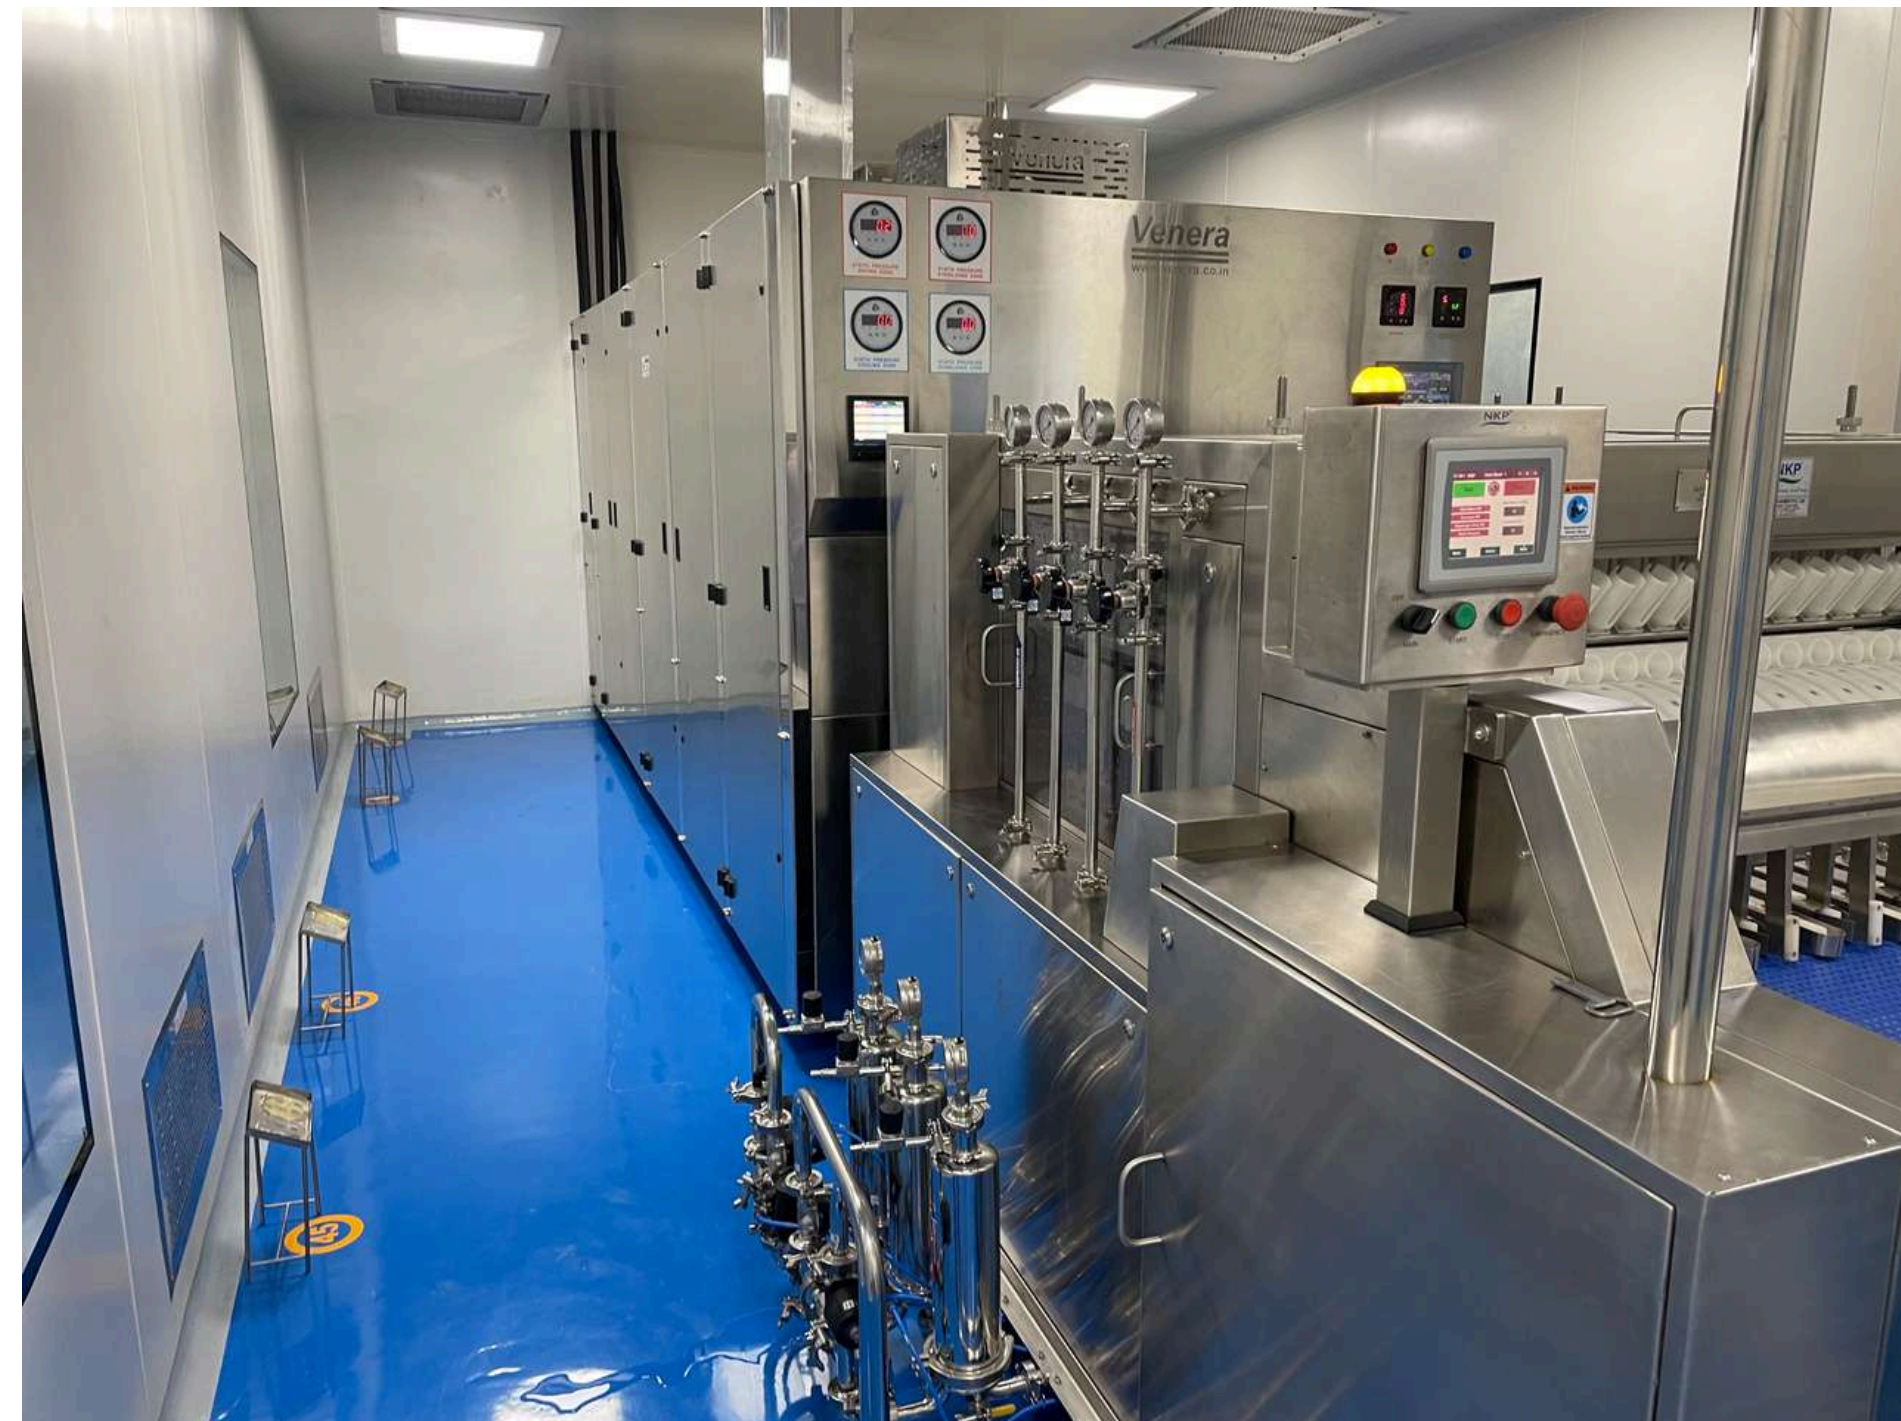

Key Components

1. Covering Page
2. Brief Particulars
 - Details of the Company
 - Products
 - Project Cost
 - Unit Size
3. Marketing Analysis
 - Introduction
 - Market Size
 - Government Initiatives
 - Future Outlook
4. Technical Aspects
 - Land
 - Building
 - Plant & Machinery
 - Utility
 - Water
 - Effluent Disposal
 - Manpower
 - Manufacturing Process
 - Comprehensive flow charts to illustrate each manufacturing process
5. Project Assumptions
6. Cost of Project
7. Detailed Land Information
8. Proposed Building Details
9. Proposed Plant and Machinery Details
10. Raw Materials Requirements
11. Power and Fuel Cost Calculation
